Education

02/2020 - 06/2023

Graduate of IT course

Junior Computer Academy

09/2023 - 06/2027

Bachelor's Degree of Software Engineer

Kharkiv National University of

Radioelectronics

04/2024 -

CS50 course

Harvard University

Expertise

- C#
- HTML/CSS
- SQL
- JavaScript
- Python
- .NET Framework & .NET Core
- ASP.NET Core MVC
-

Language

Ukrainian (Native)

English (Upper-Intermediate)

Spanish (Begginer)

Mariia Tokhtamysh

Software Engineer

As a passionate and motivated Junior Software Engineer, I bring a diverse skill set in C# and .NET development, combined with hands-on experience in project management and teaching. My journey includes leading a team to develop an award-winning app and engaging young minds in programming. I am eager to leverage my skills in developing web applications, contributing to a professional team, and continuously improving my technical expertise.

Experience

07/2023 - 05/2024

Technovation Girls

.Net Developer, Project Manager

- Led a 4-person team to complete the HomeGarden project through effective collaboration and structured team setup.
- Developed the award-winning "HomeGarden" app using **C# and Windows Forms** for the Technovation Girls competition, promoting gardening and sustainable living.
- Utilized **object-oriented programming** (OOP) principles extensively to ensure modularity, reusability, and maintainability of the codebase.
- Implemented **XML file** handling for data storage, enabling efficient saving and retrieval of user data.
- Addressed team coordination issues by implementing effective communication strategies and structured workflows, significantly improving productivity and collaboration.
- Resolved complex coding challenges by adhering to clean code principles and methodologies such as DRY (Don't repeat yourself), and KISS (Keep It Simple, Stupid), ensuring maintainability and facilitating future enhancements.

09/2023 - 04/2024

LEAD for PEACE. EduUp

Programming Teacher, Volunteer

- Conducted engaging online classes where I introduced 80 children to essential programming concepts and **Python** language.
- Increased awareness and interest in programming among young learners through engaging teaching methods, and hands-on projects.
- Overcame challenges of adapting to unfamiliar environments and different age groups, as well as delivering public presentations that captured and maintained the attention of a young audience.

10/2022 - 02/2023

Adamant Art

Web developer, Volunteer

- Led the design and development of a website from scratch using **HTML, CSS, JavaScript, and Bootstrap**.
- Successfully established a distinctive and memorable brand identity, resulting in increased opportunities to engage new speakers.
- Overcame the challenge of this being my first experience developing a website based on specific client requirements, ensuring all requests were met and delivering a high-quality product tailored to their needs.
